Meal:  
before they eat their meals

Everyday Use

## CLEAN SHOTS | Hand Sanitizer

### How it works:

Waterless hand sanitizer provides several advantages over hand washing with soap and water. However, they are not effective if organic matter (dirt, food, or other material) is visible on hands.

### Benefits of waterless hand sanitizer:

- \* require less time than hand washing
- \* act quickly to kill microorganisms on hands
- \* are more accessible than sinks
- \* reduce bacterial counts on hands
- \* do not promote antimicrobial resistance
- \* are less irritating to skin than soap and water
- \* some can even improve condition of skin

70% Alcohol

Kill 99.9% of germs instantly

# CLEAN SHOT SOLUTION FOR HAND HYGIENE COMPLIANCE

**70% Alcohol**  
**Kill 99.9% of germs instantly**

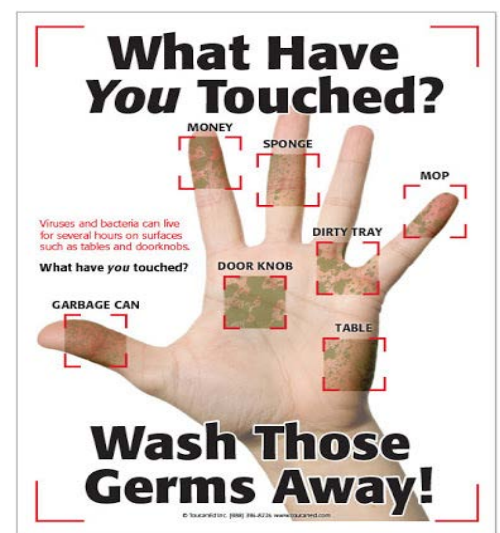

- Easy to use
- One-handed operation
